The Slovak Republic,

and

the European Space Agency, hereinafter referred to as "the Agency", established by the Convention opened for signature in Paris on 30 May 1975, hereinafter referred to as "the Convention",

hereinafter referred to as the "Parties",

CONVINCED of the benefits of sustaining and enhancing the level of international cooperation in space activities for exclusively peaceful purposes,

HAVING REGARD to the results of the cooperation achieved under the Agreement between the Government of the Slovak Republic and the Agency signed on 28 April 2010 and which entered into force on 26 May 2010,

HAVING REGARD to the Resolution on the implementation of measures concerning the European Cooperating States (ECS) adopted by the Agency Council on 21 March 2001 (ESA/C/CL/Res. 2 (Final)), by which the Agency introduced a new cooperative approach designed for European non-Member States with a view to their possible accession to the Convention,

CONSIDERING the wish expressed by the Government of the Slovak Republic to implement the European space policy and to strengthen its cooperation with the Agency within the frame of this new ECS cooperative approach,

CONSIDERING that the Slovak Republic together with the other EU Member States not members of ESA has been invited in May 2011 by ESA Council to attend ESA Council and its subordinate bodies meetings for those matters of common interest between ESA and the European Union;

HAVING REGARD to Articles II and XIV.1 of the Convention,

HAVE AGREED AS FOLLOWS:

ARTICLE 1

1.1 Through the present Agreement, the Slovak Republic and the Agency agree to cooperate in space activities, in accordance with the terms herein. For the purpose of such cooperation, upon entry into force of this Agreement, the Slovak Republic shall become a European Cooperating State (hereinafter referred to as “ECS”). The Slovak Republic hereby acknowledges and accepts that the Agency establishes cooperation agreements with other non-Member States similar to the present Agreement, thus also qualifying such other States as ECS.

In return, the Slovak Republic shall make its facilities and services available to the Agency and its Member States on equitable terms.
- 3.2 In developing its national space potential and in planning national space missions, the Slovak Republic shall make primary reference to the use of European space transportation systems, and of facilities, products and services belonging to, or developed or operated under the auspices of, the Agency or its Member States. Plan for European Cooperating States (PECS):
Objectives, Rules and Procedures

I. Objectives

I.1 Overall objectives of the PECS

The overall objective of the PECS is to associate the Slovak Republic with Agency programmes and activities and to prepare in the most efficient manner for possible future accession to the ESA Convention.

I.2 Specific objectives of the PECS

- a) Develop cooperation between scientific and applications user communities in the Slovak Republic and Agency Member States.

- b) Create and strengthen the respective industrial expertise and capacity of the Slovak Republic with a view to allowing a fair and equitable industrial participation in future Agency programmes after accession.

- c) Provide indirect access to ESA programmes and activities and access to joint Agency/EU programmes, in accordance with the terms and conditions of the applicable legal instruments.
- d) Foster the Slovak Republic's understanding of the Agency's organisation and functioning of European space products, standards and procedures.
- e) Ensure coherence between the space activities of Member States and the Slovak Republic e.g. by avoiding unnecessary duplication.

I.3 Areas and categories of activities to be covered by the PECS

I.3.1 The PECS will cover four main categories of activities, as defined in I.3.2 below, in the following five areas:

- a) Space science, in particular space astronomy and astrophysics, solar system exploration and solar-terrestrial physics;
- b) Earth observation research and applications, in particular environmental monitoring, meteorology, aeronomy and geodesy;
- c) Telecommunications, in particular service demonstrations and satellite navigation;

- d) Microgravity research, in particular space biology and medicine, and materials processing;
- e) Ground segment engineering and utilisation.

I.3.2 The categories of activities covered by the PECS are the following:

- a) Technology and equipment relating to ESA optional programmes which are not on the critical path for execution of the Agency's programmes ("non-critical path technology");
- b) Scientific projects and/or experiments;
- c) Data exploitation;
- d) Support to Small and Medium Enterprises (SMEs).

I.3.3 The detailed activities to be covered by the PECS shall be defined in a rolling five-year plan to be renewed, at the end of the fourth year of each five-year period in the light of the negotiations concerning renewal of the Agreement between the Agency and the Slovak Republic, for a new five-year period starting at the end of the fifth year. The five-year draft plan

shall be approved within the framework of the Committee and in accordance with the procedures referred to in paragraph II.1.2 below.

II. Rules and procedures

II.1 Implementation of the PECS

II.1.1 The Agency shall execute the PECS in conformity with its rules and procedures, unless otherwise provided for in the present objectives, rules and procedures.

II.1.2 A dedicated Committee, hereinafter referred to as "the PECS Committee", shall be set up to monitor and control implementation of the PECS. The Committee's terms of reference and rules of procedure are described in Appendix II below.

II.1.3 National institutions under the jurisdiction of the Slovak Republic may, at the Agency's request and with the agreement of the Slovak Republic, provide technical support for one or more activities to be executed under the PECS; where appropriate, such support shall be covered by an exchange of letters between the institution concerned and the Agency, which shall be forwarded for information to all the other ECSs and to the Council of the Agency.

II.1.4 The Agency shall make its facilities and services available for activities performed under the PECS in accordance with the provisions of Article 3.1 of the present Agreement. In particular the Agency's Electronic Mail Invitation Tender System (EMITS) shall be made available to registered firms in the Slovak Republic on the following conditions:

- a) Read-only access for Agency programmes; and
- b) Full access to activities included in the PECS, and access to joint Agency/EU programmes, in accordance with the terms and conditions of the applicable legal instruments.

II.2 Content of the PECS

Prior to the start of activities for a five-year period, the Agency shall draw up a five-year PECS, based on inputs received from the Slovak Republic and Member States in accordance with the following procedure:

II.2.1 The Agency shall consult with the Slovak Republic on its wishes regarding non-critical path technology.

II.2.2 Taking into account the provisions of Article 6 of the Agreement, the Agency shall thereafter establish a preliminary draft five-year PECS to be

discussed in each Programme Board and Committee, and shall submit it for approval, by a two-thirds majority vote of the Member States or the participants concerned, to the following Agency Committees and Programme Boards with a view to its approval by the PECS Committee:

- a) to the relevant Agency Programme Boards: with respect to contributions by the Slovak Republic in the development and/or the exploitation phase of systems and payloads or to the development of non-critical path technology, to be undertaken within the framework of Agency optional programmes;
- b) to the Science Programme Committee (SPC): with respect to contributions by the Slovak Republic in the development and/or the exploitation phase or in the development of non-critical path technology, to be undertaken within the framework of Agency scientific projects.
- c) to the Industrial Policy Committee (IPC): with respect to the inclusion in its PECS of the development of certain technologies listed in the Agency's Technology Master Plan to be undertaken by the Slovak Republic or the development by the latter of non-critical path technology in this field and of activities to be undertaken in support of SMEs.

In addition, if the PECS activity is included within the scope of the activities as defined in Annex A to a programme Declaration in force or in the process of being finalised, the corresponding Declaration or draft Declaration shall be amended or shall acknowledge this PECS contribution accordingly.

The IPC shall also examine and approve by a simple majority vote of all Member States the industrial policy aspects of the PECS before it is submitted to the PECS Committee for approval.

II.2.3 The Agency shall thereafter prepare a consolidated PECS on the basis of the elements approved by the relevant Committees and Programme Boards with a view to its examination and approval by the PECS Committee. The Slovak Republic shall at this stage inform the Agency and the PECS Committee of the activities it wishes to support, taking into account the convergence and complementarity of industries of Slovakia with those of ESA Member States, and shall also give the Agency confirmation of its intended contribution to the funding of the activities concerned.

II.2.4 Prior to approval of the five-year PECS by the PECS Committee, any changes in the content of the proposed activities requested by the PECS Committee, with the exception of deleted activities, shall be forwarded for examination to the relevant Committees and

Programme Boards. The relevant Committees and Programme Boards shall thereafter forward their approval of the proposed changes to the PECS Committee for its approval.

II.2.5 Once the PECS Committee has approved the five-year PECS, the Agency shall, on the basis of that PECS, prepare a specific instrument, hereafter called the “PECS Charter” (referred to in Article 14.1), allowing the Slovak Republic to commit financially to the PECS. The PECS Charter shall include the references of the activities to be financed by the Slovak Republic as defined in the approved PECS and shall show the corresponding financial contribution to be subscribed by the Slovak Republic including its financial share of the internal costs of the Agency referred to in paragraph II.4, together with the corresponding indicative breakdown and schedule of payments. The PECS Charter shall be presented by the Agency to the Slovak Republic for subscription and shall thereafter be transmitted to the PECS Committee for information.

II.2.6 The five-year PECS may be revised and updated once every year during this five-year period to take into account new activities that are proposed by the Agency and in which the Slovak Republic or another ECS has expressed an interest. Approval of the yearly revision of the PECS shall be preceded by approval by the relevant Agency Committees and Programme Boards. If as the result of the above

procedure new activities are added to the PECS, the PECS Charter shall be amended by the Agency accordingly and the Slovak Republic shall agree on its resulting increased contribution, if any, as reflected in the updated PECS Charter.

II.3 Industrial policy principles

II.3.1 The financial contribution of the Slovak Republic to the PECS shall be based on a guaranteed geographical return coefficient of 1. The geographical return shall be calculated according to the Resolution on the Regulation Concerning the Calculation of the Geographical Return Coefficients and the Publication of Corresponding Statistics and Forecasts (ESA/C/CXXXVIII/Res. 6 (Final)) or any other applicable decision, ruling, resolution or other act made by the Agency's Council or in delegation there from.

II.3.2 When defining the content of the five-year work plan of the PECS and any revision thereof, the following industrial policy principles shall be applied:

- a) non-distortion of competition;
- b) complementarity with existing expertise in Member States;

- c) complementarity with the activities undertaken in the approved ESA programmes;
- d) impact on the development of the use of services derived from European space assets;
- e) technological value for the Agency with emphasis on:
 - innovation potential
 - compatibility with the European Technological Master Plan and/or with the future programmatic needs of the Agency;
- f) impulse to European industrial networking;
- g) opening of new markets for competitive suppliers;
- h) involvement of SME

II.3.3 These criteria will also be used by the IPC when examining and reviewing the draft PECS.

II.4 Financial matters

- II.4.1 The PECS shall be financed through contributions by the ECS made in accordance with the rules and procedures of the Agency, which will be formalised through subscription by the Slovak Republic of the PECS Charter in accordance with the procedures referred to in paragraph II.2. The Slovak Republic will, for the management of the programme, cover the full Agency's internal costs pursuant to the terms of the ESA Financial Regulations ESA/C/CCXXXIII/Res.1 (Final).
- II.4.2 The minimum financial contribution required for the participation of any ECS in the PECS over a period of five years amounts to 5 MEURO at 2001 economic conditions.
- II.4.3 Work may start as soon as one ECS has subscribed to the PECS Charter.
- II.4.4 The Slovak Republic may subsequently increase its contribution to the PECS once a year as long as such increase does not entail any additional cost to other ECS.
- II.4.5 In the case of contracts co-financed by either the selected firm or other sources the participation in Agency's internal costs shall be calculated on the basis of the overall contract value, unless otherwise agreed.

II.4.6 At the end of each five-year period covered by the PECS, the share of the Slovak Republic's contribution that has not been earmarked for the execution of the corresponding work shall be used to finance activities planned to be executed in the following five-year period covered by the PECS, unless otherwise required by the Slovak Republic.

II.4.7 In the event of termination of the present Agreement, any contribution of the Slovak Republic not committed under the PECS may be assigned by the Slovak Republic to other Agency programmes in which it participates if it becomes a Member State or an associate Member, or may be otherwise disposed of as decided by the Slovak Republic.

II.5 Contractual Matters

II.5.1 The Agency shall conclude the contracts necessary for the execution of the PECS in accordance with its rules and procedures, in particular by applying the general clauses and conditions for ESA contracts and in particular all contracts shall be placed in EURO.

- II.5.2 Contractual commitments entered into by the Agency shall be limited to the funding available. The Agency shall not issue an invitation to tender when the funding for the activities concerned is insufficient in relation to the cost estimates in the work plan.
- II.5.3 Activities shall as a general rule be carried out through an open competition procedure in the ECS that have expressed an interest in the activities concerned.
- II.5.4 In the case of co-funded activities the Agency shall retain full visibility over expenditure planned and actually incurred by the contractor as well as the origin of all funding for the purpose of the execution of the contract. Where appropriate this may include a right of audit by or on behalf of the Agency.
- II.5.5 Any intellectual property rights stemming from the in-orbit flight of a payload included in the activities of the PECS shall be governed by the Agency's Rules.

II.6 Final provisions

- II.6.1 The Slovak Republic shall in principle, depending on the objectives of the cooperation project, be the owner of the assets produced and funded by it under the PECS as well as of the facilities, software

and equipment acquired for its execution, while taking into account the principles governing Agency contracts.

II.6.2 Amendments made to the present Appendix I shall require the Parties' written agreement.

Functions of the Chairman and conduct of business

- 4.1 The Chairman shall, subject to the provisions of these Rules, control the proceedings of the Committee and maintain order during its meetings. He or she shall declare the opening and closing of each meeting, direct the discussions and, if necessary, sum them up, ensure observance of these Rules, accord or withdraw the right to speak, decide points of order, put proposals to the vote and announce decisions. He or she may propose adjournment or closure of the debate, or adjournment or suspension of a meeting. He or she shall ascertain before each vote that a quorum is present in accordance with paragraph 4.10 below.
- 4.2 No one shall take the floor without first having obtained the Chairman's authorisation. Subject to the provisions of paragraph 4.3, the Chairman shall call upon speakers in the order in which they have asked to speak. The Chairman may call to order a speaker whose remarks have no bearing on the subject at issue.
- 4.3 During the meeting, an ECS may move a point of order. The Chairman shall give an immediate ruling on this motion. Any ECS may appeal against the Chairman's ruling, in which case the appeal shall be debated and put to the vote. Unless the appeal is upheld by a majority of ECS present and voting,

If two or more amendments are moved the Committee shall vote first on the one which the Chairman rules to be in substance farthest from the original proposal. Where adoption of one amendment necessarily implies rejection of another amendment, the latter shall not be put to the vote.

- 4.7 Any ECS may request that parts of an amendment be put to the vote separately. If this request meets with objection, the motion to split the amendment shall be put to the vote.
- 4.8 If an ECS so requests, the Committee shall then vote on the final amended proposal.
